

X7KP14: PGCE Secondary - Physics

Postgraduate Taught PGCE 2019

Essentials

UCAS code	
Degree	PGCE
Mode of study	Full Time
Duration	1 year
Location	Durham City (www.durham.ac.uk/study/location/durham.city)
More information	Still have questions? (www.durham.ac.uk/study/askus/)
Department(s) Website	www.durham.ac.uk/education

Course Summary

Description

The PGCE Secondary is the first phase of a career-long process of personal and professional development, which will equip you to become a secondary school teacher. The PGCE Secondary is a course in Initial Teacher Training which is accredited by the DfE, the successful completion of which will accord you Qualified Teacher Status (QTS). Our course has recently been inspected by Ofsted which resulted in an "Outstanding" grading for all aspects of our provision.

Students who have successfully completed the PGCE (www.dur.ac.uk/education/itt/) at Durham in the previous academic year have the option to use 90 credits they have accredited towards a part time MA Education. These students only need to do the core modules, Education Enquiry and the Dissertation over 2 years, to complete the course.

Subject pedagogy is explored in curriculum groups, examining techniques for making each subject accessible and stimulating in a classroom environment.

We believe strongly that to be able to teach successfully you must acquire a good understanding of the 'big ideas' of science as well as learning about how to teach science. The university-based time is therefore divided into two main parts:

- Core Science in all disciplines addresses your own understanding of the key concepts underpinning science. Many students approach this theme with excellent qualifications but have never had an opportunity to explore their understanding of these concepts. Students have said that this part of the course is "thought provoking", "enlightening" and "challenging". You are expected to follow up this work with tutor and peer group support, using the extensive library facilities.
- Science Education Issues looks at pedagogical issues relevant to how science is actually taught.

Structure

The course is organised as three modules:

- Professional Issues in School Based Education
- Teaching and Learning in the Curriculum
- Self-directed Study

The **Professional Issues in School Based Education** relates to the Teacher Standards and is delivered in two parts, prior to each of the two extended teaching practices. The teaching is related to those classroom-based issues such as the psychology of learning, the law, curriculum groups, examining techniques for

making each subject accessible and stimulating in a classroom environment and is followed up in subject groups and during school placements. The block practices in the Autumn and Spring allow for practical opportunities for full professional development where there is a progression from observation, structured activities and group work to whole class work.

Teaching and Learning in the Curriculum and **Self-directed Study** are studied at Masters Level. The Teaching and Learning in the Curriculum Module draws on the international research expertise within the School of Education enabling student teachers to engage critically in issues relevant to the classroom and school, particularly those that impact on the success of children as learners. The Self-directed Study module draws on students' experience during weekly visits to schools and their own small scale action research, and links this to critical engagement with published educational research.

These Masters modules provide an opportunity to explore, in a more theoretical way, the issues to do with teaching and learning through lectures and mixed subject and phase seminar groups taught as a conference week usually after Christmas. In addition to covering Teacher standards these modules will enable assessment work to be carried out for the award of PGCE.

On successful completion of the course, student teachers will have 90 credits and

Admissions Process

Subject requirements, level and grade

At UCAS you can apply for this course by using the following code: F3X1

- The equivalent of an honours degree of which approximately 50% is comprised of Science or a similar subject. If your degree is from an overseas institution you **must** apply for a Statement of Comparability from NARIC (ecctis.co.uk/naric/)
- Significant and relevant subject knowledge and recent experience of the science teaching environment. This should be demonstrated at both application and interview
- A levels or equivalent in at least two science subjects should your degree have less than 50% relevant subject knowledge and wish to apply for a Subject Knowledge Enhancement course (SKE)
- A demonstrable an interest and involvement in the lives and development of young people
- GCSE English and Mathematics at Grade 4 (or C) or above (or equivalent) which must be achieved at the time of application. If your equivalent qualifications are from an overseas institution, you **must** apply for a Statement of Comparability from NARIC (ecctis.co.uk/naric/)
- Applicants with non-standard qualifications, for example, access routes into higher education are welcome to apply
- We welcome applications from mature applicants pursuing a career change
- Pass the QTS Skills Tests (www.education.gov.uk/get-into-teaching/apply-for-teacher-training/skills-tests) by the first day of the course

Your professional and interpersonal qualities and your commitment to teaching will be considered when making an admissions decision. Candidates who meet the criteria, will be invited to a selection day. Selection days will involve individual interviews with a pre-prepared presentation element and tests to assess written English and other skills.

Successful candidates will receive an offer conditional upon successful medical and criminal record checks. The latter is carried out by the Disclosure and Barring Service (www.gov.uk/disclosure-barring-service-check/overview) and full instructions on how to apply for a DBS Disclosure will be provided.

If you have a criminal record of any kind, you may contact the School of Education DBS Manager, caroline.emery@durham.ac.uk for further advice and information. All enquiries will be treated in confidence.

We strongly encourage you to register for the DBS Update Service (www.gov.uk/dbs-update-service), which lets you take your certificate from one employer to another without having to apply for a new check. **Please note, all DBS Enhanced Disclosures for our students must be processed by Durham University unless you have applied to the Update Service.**

English Language requirements

Please check requirements for your subject and level of study (www.durham.ac.uk/learningandteaching.handbook/1/3/3/)

Fees and Funding

Full Time Fees

EU Student	£9,250.00 per year
Home Student	£9,250.00 per year
Island Student	£9,250.00 per year
International non-EU Student	£19,250.00 per year

The tuition fees shown are for one complete academic year of full time study, are set according to the academic year of entry, and remain the same throughout the duration of the programme for that cohort (**unless otherwise stated**).

Please also check costs for colleges and accommodation (www.durham.ac.uk/postgraduate/accommodation/costs/).

Department Information

School of Education

Overview

The School of Education is one of the leading departments of education in the UK. We are a large department, with around 50 academic staff, and around 650 postgraduate students (including our PGCE students, both primary and secondary). We are also supported by a large number of partners from schools and colleges. We have strong international links, welcoming students, postdoctoral fellows and visiting scholars from all over the world. We are committed to research which engages with, and has an impact upon, practice and policy as well as influencing the wider research community to develop educational practice, education policy and future educational research.

Ranking

Ranked joint 5th in the UK for World-Leading research and joint 1st for World-Leading research impact in *REF 2014*.
