Overview

The School of Education at Durham University is an Ofsted-rated Outstanding Provider of Initial Teacher Education (rated in 2010/11 and again in 2012/13).

The core of our programme is the partnership between the University and schools. The course has been developed so that students are taught by primary education experts, using innovative and research informed methods to develop their knowledge and skills. Outstanding teachers require excellent subject and pedagogical knowledge, and our programme offers both academic and practical opportunities to develop both.

Our partnership with schools is firmly embedded within the programme, so students spend time in school throughout the course of study. Our network of primary schools covers a wide geographical area and a diverse range of schools. We operate a cluster model, where schools work in teams to offer a variety of teaching experiences to our students, putting into practice their professional learning. Our programme weaves together knowledge, skills and understandings from research, theory and practice-based experiences.
