### Dissertation

In the third term, you will carry out an original research project. This may be an independent piece of work or, alternatively, you may decide to develop a more applied project with an appropriate organisation. Supervised by a faculty member with relevant experience, you'll investigate in greater detail a subject that you've already studied as part of your programme. This is an opportunity for you to develop your business insight and present your analysis and ideas in a scholarly and professional manner.

### Additional Resources

The School has made a significant investment in database resources to give you access to both live and historical data from providers which include Thomson Reuters, Bloomberg, Datastream and Orbis. These state-of-the-art databases give you the opportunity to interrogate the financial records of millions of companies

worldwide and add valuable insight to your research.

## **Adding to your experience**

### **International Opportunities**

We're proud of our strong international connections. Helping you get an inside perspective on global business is a key part of the programme. That's why we offer a range of opportunities to help you immerse yourself in a country's business and academic environment, make new contacts and stand out in a competitive job market. These include:

- **Dissertation Abroad**  
If your ambitions lie beyond the UK, we offer a number of places on our unique Dissertation Abroad scheme. This will involve writing a dissertation at one of our international partner institutions in the period June to August. A number of scholarships are available.
- **International Study Tour**  
We organise an optional International Study Tour to a European destination, typically Switzerland. This intensive programme takes place over several days, normally in March/April, and offers you a great opportunity to get an 'inside perspective' on international business, and to network with key staff within organisations.

**Covid-19:** As the health and well-being of our students is our main priority opportunities to travel to international locations may not be able to happen. If further or continued government restrictions necessitate, we will deliver these important global learning experiences virtually.

### **Guest Speakers**

As part of your programme, you have the opportunity to enjoy presentations by academics and practitioners within your chosen area of interest. Past speakers have included representatives of major global multinationals and leading academics, providing an ideal opportunity to gain practical knowledge and progressive insight.

#### Connecting with business

Over the years we've built strong links with many leading global organisations. Companies such as KPMG, Deloitte and RBS give our students access to 'live' issues and practical challenges. At the same time, business partners gain a fresh perspective from us and benefit from our research and insights.

#### Bringing great minds together across the globe

We are a truly international business school with over 100 nationalities in our student and faculty bodies. Diverse perspectives and experiences feed into our learning, providing a unique insight into cultural nuances around the world. What's more, through our partnerships with other international universities, we're able to tap into a huge pool of global knowledge.

#### Thinking further

Creativity and critical thinking are two of the most valuable -and often overlooked - business skills. That's why we focus our teaching on developing agile, independent minds. Equipped with these vital skills, our graduates can tackle whatever business brings, however unpredictable. Employers tell us this is what sets Durham graduates apart.

#### Looking to the future

We may be inspired by our past, but we are firmly focused on the future. We're currently investing in new world-class facilities to match our reputation including the expansion of the Mill Hill Lane site and the development of improved teaching, office and events spaces.
