Application for a Haringey Bursary
for the MSc Energy and Society 2013

In partnership with Haringey Council, two student bursaries are available for the MSc in Energy and Society. The bursary covers UK/EU fees plus an amount to cover expenses for dissertation research towards Haringey’s carbon reduction and inequality goals. Dissertation topics should be developed in dialogue with Haringey and their local partners within the following themes:

Theme 1: Community development and leadership programmes: joining up health & well-being, social inclusion, and environmental sustainability.

Theme 2: Evaluating community energy: user investment in, and reduction of energy consumption.

Applications will be considered on the quality of a research proposal put forward in relation to the above themes. The actual project undertaken will be developed with guidance from course tutors and in dialogue with Haringey council.

Applicants for the bursary should hold an offer of a place on the MSc Energy and Society. If you do not already have an offer, please apply via the university’s online application website.

Bursary applications should be submitted by 12 August 2013 as email attachments to: kate.payne@durham.ac.uk

For further information about Haringey Carbon Commission, see:
www.neweconomics.org/publications/entry/the-haringey-carbon-commission
www.haringey4020.org.uk

Priority will be given to applicants resident in the borough of Haringey.
